- *Municipal Planning and Performance Management Regulations act*

IMPLEMENT THE BEST PERFORMANCE MANAGEMENT SYSTEM

The RiskSecure™ Automated Performance Management System (APMS) is the only way to ensure your municipality complies fully with Performance Management requirements in the modern era.

- Automated Enterprise-Wide platform provides a robust platform for a system that provides the best Performance Management System available, at a very affordable cost.
- Easily Measure, evaluate, analyze and report performance of resources, projects, people, and departments against set targets

WHAT IS IT?

Our system ensures all Key Performance Areas, right down to each each indicator, are monitored, reviewed, reported and analysed. Im-

plementing a Performance Management System needn't be long, labour-intensive and costly; Our system completely automates the process. RiskSecure's highly intelligent software allows users to instantly access information to measure performance of projects, staff members, and departments.

STRESS FREE...

Be free of the stress of collating numerous documents and filing exhaustive paperwork, as our system stores all data online. Top management will be able to quickly assess problem areas or good performers through trend analysis, comparative measurements, and our target measurement module. Audits will forever be quick and painless.

IMPROVING THE CULTURE OF PERFORMANCE EXCELLENCE

- Assists in corporate governance, facilitating board and senior management to oversee risk mitigation from all departments and provides management perspectives for reporting of loss, exposure and risk
- Fulfill all legislative compliance requirements and allows for management to effectively plan for the future
- Reduce the potential high costs of overpriced consulting, and the labor intensive paper driven work required with a manual solution.
- Link Institutional performance with Employee Performance.
- Incorporate all your key indicators from your Integrated Development Plan, Community Approved Indicators, as well as Local Government Indicators
